PROFESSIONAL SUMMARY

Revenue and business operations professional with 3+ years supporting revenue-generating teams through CRM data management, lead and lifecycle operations, performance reporting, workflow coordination, and cross-functional execution across SaaS, media, and B2B environments. Hands-on with Salesforce, HubSpot, Excel, SQL/PostgreSQL, and Power BI, including an end-to-end RevOps portfolio project spanning CRM audits, pipeline and forecast governance, Deal Desk, dashboards, and Salesforce controls.

CORE SKILLS

Revenue Operations: CRM governance, lead qualification and routing, lifecycle management, pipeline support, Deal Desk, process documentation
Reporting & Analysis: SQL/PostgreSQL, Microsoft Excel, Power BI, DAX, KPI/ROI reporting, forecasting analysis, data validation, reconciliation
Systems & Tools: Salesforce, HubSpot, Google CM360/DV360, Microsoft 365
Business: Stakeholder communication, requirements gathering, cross-functional collaboration, marketing-to-sales handoffs, process improvement

FEATURED PROJECT

AsterPeak Revenue Operations Command Center | Independent RevOps Portfolio Project | Sep 2026 - Oct 2026

- Built an end-to-end RevOps command center on a 13,864-record synthetic B2B SaaS dataset using PostgreSQL/SQL, Excel, Power BI, and Salesforce; reconciled outputs and surfaced 53 flagged opportunities representing $2.05M in at-risk pipeline ARR.
- Audited lead routing, pipeline health, forecast alignment, CRM completeness, and Deal Desk governance, including 87.5% routing compatibility, 95.7% forecast alignment, and 40.7% documented approval coverage among qualifying closed deals.
- Implemented Salesforce custom fields, formula logic, five validation rules, Deal Desk approval gating, reports/dashboard, and documented lead handoff, opportunity governance, and commercial approval workflows.

PROFESSIONAL EXPERIENCE

Customer Service Solutions Representative (Field Sales)
Advanced Material Handling Systems / Toyota Material Handling Systems | Jan 2025 - Aug 2025

- Built and maintained a structured CRM workflow for a new territory, tracking account activity, follow-up dates, service needs, and next steps to support accurate records and consistent execution.
- Reviewed territory and account information to prioritize opportunities, plan daily activity, and allocate time across leads, customer meetings, and operational needs.
- Coordinated 20+ in-person visits and 40+ calls and emails daily while managing scheduled meetings and keeping account records current.

Digital Advertising Operations Specialist
Cox Media | Sep 2022 - May 2024

- Managed reporting and operational execution across multiple client accounts in Google CM360 and DV360, monitoring campaign setup, pacing, delivery, and performance against established goals.
- Analyzed KPIs and ROI, validated campaign records, and translated performance trends into concise recommendations for client reviews and internal decision-making.
- Partnered with account, creative, and operations teams to troubleshoot delivery issues, meet deadlines, and maintain consistent contract fulfillment.

Marketing Operations Intern
LeaseQuery (now FinQuery) | Aug 2021 - May 2022

- Supported marketing operations across Salesforce and HubSpot by creating campaigns and reports, building forms and workflows, maintaining contact data, and troubleshooting CRM errors.
- Processed leads from webinars, product tours, website forms, and other inbound sources, applied ICP qualification criteria, and routed records to the appropriate Sales owners.
- Managed marketing-to-sales handoffs through a shared inbox by triaging requests, documenting inquiries, and coordinating timely follow-up with the appropriate teams.

ADDITIONAL EXPERIENCE

Independent Pet Care and Project Support | Self-Employed / Project-Based | Aug 2025 - Present

- Coordinate recurring client schedules, care instructions, payments, and updates while managing independent and project-based work.

EDUCATION

Bachelor of Business Administration, Digital Marketing
University of Georgia | May 2021
